

PowerBright designs and manufactures the most technologically advanced inverters on the market today. Committed to continuously offering the most innovative, efficient, and environmentally responsible equipment, Power Bright invests significant resources in ongoing research and development.

Pioneering new technologies and continuously refining our existing products, Power Bright sets the standards in today's power conversion industry.

The EPS-300-12 Pure sine wave inverter is perfect for use with sensitive equipment like laptop computers, TV's and charging devices like phones, power tools.

Specifications:

Pure Sine Wave
Continuous Output: 300 Watt
Peak Output: 500 Watt
Input: 12V DC Output 240VAC
Efficiency: >90%
Distortion Rate: <3%
Min Input Voltage: 10V DC
Max Input Voltage: 15V DC
Overloading Protection
Short Circuit Protection
Automatic Thermal Shutdown
Overload Indicator
Soft Start
240V Power Outlet
Heavy Duty Metal Case

Model EPS-300-12

2 Year Warranty

SKU-6662
